## Playground Development Consultation for Jubilee Playing Field

Cam Parish Council has exciting plans to create two new play areas for children at Jubilee Playing Field, which is a 16-acre site off Everside Lane in Cam. It is anticipated that these two areas will be sited on the open green space next to the Sports Pavilion and carpark as follows:

**TODDLER AREA (shown in yellow on the map below):** A play area for toddler aged children is planned for the space between the carpark and the row of trees. This area would be fenced and dogs would not be allowed within the play space. The rear fence line of the toddler play area would be 15-metres from the neighbouring residents' fences. There would be two gates.

There are several attractive, established trees within this area and Cam Parish Council hopes to use these to give welcome shade and shelter to play users as well as providing additional natural play opportunities. Advice would be taken on these trees as the project progresses.

**JUNIOR AREA (shown in green on the map below):** Exciting new play equipment for older children is planned for the area from the row of trees next to the toddler area, sweeping up to the skatepark. This area would not be fenced but Cam Parish Council would expect dogs to be kept on leads. The majority of the new play equipment would be placed on the large area furthest away from the football pitches but some equipment might be considered on the other side of the path too.

There's an old silver birch towards the back of this new junior play area and this would be protected with chestnut paling. It's a lovely tree but probably wouldn't stand up to too much climbing.
