### Wildlife

Gulls

Are there any other reasons you think this is an important area to keep as a green space?

If it is built on it would double the number of people living on Evedlands. All their traffic has to go up Gas works Pitch or at Alam through Chapel Street. This will result in impossible traffic congestion!

**Wildlife**

Birds and fish to appreciate

Are there any other reasons you think this is an important area to keep as a green space?

If it is built on there will be extra pressure on traffic either into Dursley or even worse through Chapel Street which is already almost impassable if going out through Lower Cam.

#### Beauty

Provides a sports ground to Cam with a spectacular view.

#### Historical Significance

This has historically been a sports ground given to the people of Cam for recreational use. Both the Cricket Club and football club have a long history with the ground.

### Recreational Use

This is a very important recreational area for the people of Com. Supporting Cricket, football and Tennis clubs all of which support and promote participation for all and involve a great number of children in sport.

### Tranquility

### Wildlife

Are there any other reasons you think this is an important area to keep as a green space?

This would be a sad loss to the community of Com. The area does not have to infrastructure to support further volume of housing and traffic, for example making an existing problem of traffic through Chapel Street even worse.

Beauty

In an area of residential use this provides a small area of natural beauty

### Historical Significance

Forms part of the Historical 'Dursley Donkey' real route with the original Footbridge

### Recreational Use

Well used by dogwalkers, walkers and children playing and provides a safe natural environment for said children to play in.

### Tranquility

Provides a natural and accessible area of peace, quiet and nature for the people of Upper Cam.

### Wildlife

Provides habitat for a multitude of wild life, Trout, Kingfisher and poss. by other in the river, Fox, Badger, Mice, invertebrates, Buzzards, Sparrow Hawks and other bird life.

Are there any other reasons you think this is an important area to keep as a green space?

Preservation of green spaces is important, particularly those providing natural wild life habitat.

Plus this forms the natural flood plain for the river, which if removed would cause major problems in flood conditions. Also the infrastructure does not exist to support further housing and associated traffic in this area.

### Historical Significance

The historical significance I can think of is that it was where the "Dursley Donkey" had part of its track. There is still an old railway footbridge in place.

### Recreational Use

A good area for a peaceful walk by the Cam. Used a lot by people walking their dogs and also by children playing.

### Tranquility

A peaceful, calm area for people to enjoy.

### Wildlife

Birds, squirrels, fish and I believe that an otter(s) has been spotted in the Cam.

Are there any other reasons you think this is an important area to keep as a green space?

There is not the infrastructure to support more building on this area. Again it would increase pressure on traffic when going to Dursley or through Cam. Even now, Chapel Street can be a nightmare to get along when cars are parked on it.

### Recreational Use

This area is used by cricket, football and tennis teams/clubs. It is also used by schools (local) on an annual if not more frequent occasions. The land is also the venue for the Cam Beer Festival - enjoyed by many.

### Tranquility

It is a peaceful, calm area a lot of the time, where people can walk or just sit quietly and relax.

### Wildlife

Birds use this area as a feeding spot.

Are there any other reasons you think this is an important area to keep as a green space?

If it is built on it would massively increase the number of vehicles using Everlands. This in consequence would increase the amount of traffic along Chapel St and/or up Kingshill Lane (Gasworks Pitch), resulting in yet more congestion.

## Beauty

in the Spring the cherry trees are stunning

## Historical Significance

I played in the park 40+ years ago have fond memories of my childhood playing there. Future generations should also have chance to enjoy the park and have memories to share.

## Recreational Use

Children come from school and play. Parents get to socialise, teenagers come + use the football pitch + basketball pitch. People bring picnics and youngsters learn to ride their bikes.

## Tranquility

even when the park is full of children it still seems tranquil. The sound of children having fun + laughing playing outside is something you don't hear much nowadays with all the technology.

## Wildlife

Birds love to sit in the trees. one year we had ducks wading in the water.

Are there any other reasons you think this is an important area to keep as a green space?

This should be kept as a green space.

for everyone to enjoy, laugh together meet up with each other, and for children to be children!! The trees are essential for birds as most houses don't have trees in gardens anymore.

## Beauty

In the springtime the trees look beautiful when they come in to blossom, also in the autumn they look equally beautiful when the leaves start changing colour.  
Historical Significance

I used to play there when I was growing up, and my own children, nieces and nephews, have all had fun playing on the park. We've had summer fayres there also one year we had carol singing.

Recreational Use  
children, Teenagers, and adults use the park, when coming home from school, during the holidays. Some parents, pick up their young children and then have a picnic on the park, the children carry on playing football, basketball, tag and playing on the play equipment.  
Tranquility

Early morning, late evening and even when the children are playing it's still tranquil.

## Wildlife

The trees on the park are essential for birds for they can find food, such as bugs and berries and hearing them singing makes you realise how wonderful they are, we have also noticed some foxes occasionally, one year there was some ducks sitting in a puddle.  
Are there any other reasons you think this is an important area to keep as a green space?

It is important to keep this as a green field, play area as enough land has gone under bricks and mortar and there will be no green space left.

**Recreational Use** This Park gets used by children everyday & has always been here. It's lovely for children & teenagers & we need areas like this to keep them occupied.

### Tranquility

The Park brings tranquility & beauty to woodlands, too many green areas are being destroyed

**Wildlife** I often see foxes & hedgehogs over park & we need to protect wildlife & our green spaces.

Are there any other reasons you think this is an important area to keep as a green space?

This space is used by children to play, adults to sit & relax, wildlife, dog walkers & is important to keep for the community.

Historical Significance

### Recreational Use

Too small for "recreational use" but green spaces cheer people up and not feel surrounded and hemmed in

### Tranquility

More houses lead to more cars, more pollution, more noise, more strain on the infrastructure

### Wildlife

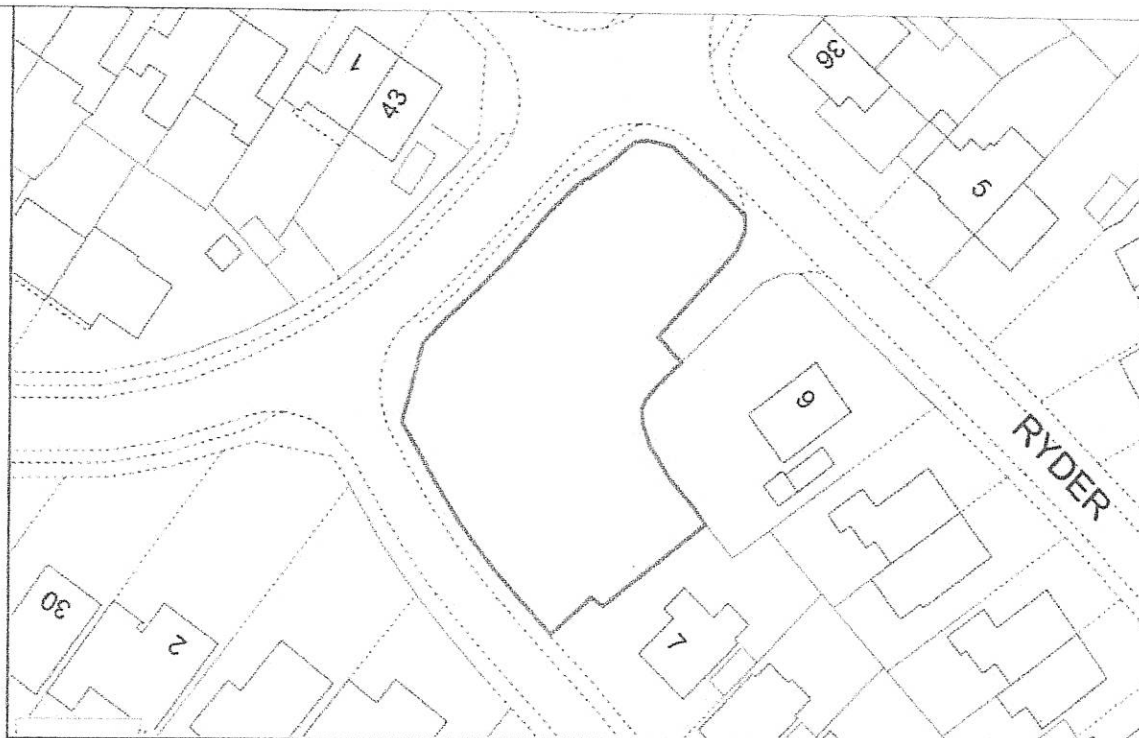

Wildlife as such is limited in such a small area close to houses, but a survey of small creatures (insects, worms etc) would probably answer this question. Wild flowers should be included, too.

Are there any other reasons you think this is an important area to keep as a green space?

"Green" and "space" is the best reason for not building in the area.
