Quote 2 – CR Industrial

Morning Beth

Apologies for the following informal quotation. We're currently working at Sedbergh School in Cumbria so will resend via QuickBooks when back this Thursday.

I would price these on an average cost of £195+vat per shelter.

This would consist of a low pressure steam clean / chemical application where necessary using a self contained truck mounted unit.

Please find attached below some of our recent comparative works carried out for Gloucester City Council, Cheltenham College and The National Star Centre.

We can also quote for weed/debris removal around the shelters if it's of interest.

Kind Regards

Chris

£195 + 20% VAT = £234 x 9 Shelters = £2106

Quote 3 – GW Shelter Solutions

Quotation

SPECIFIC TERMS & CONDITIONS OF THIS QUOTATION

Quote 4 – Gloucester Cleaning Service

Hi

Thanks for your enquiry

To clean all 9 will be £1250 plus vat

Kind regards

Dave

Gloucester cleaning service

Tel: 01452 533783. 07972588741

www.gloucestercleaningservice.co.uk

In summery;

Quote 1 total = £720

Quote 2 total = £2106

Quote 3 total = £495

Quote 4 total = £1250

It is my recommendation that we chose **quote 1**. Although second cheapest, it includes all vegetation cutbacks in the quote, which the cheapest does not include.

Further to this, should the handyman contract be renewed to exclude bus shelter maintenance, Core Clean have offered a competitive price for annual maintenance (including first clean discount).
