

Meeting	Planning & Highways
Date	Wednesday 8 th October 2025
Report Title	25.079 car parks on Box Road
Author:	Lucy, Clerk

In February 2025, P&H Committee resolved - **With the lack of tangible agreement from the other authorities to adopt this car park, Cam Parish Council will commit to investigate taking on the ownership and future management.**

The appeal on the Box Road car park has been issued and is interesting reading. SDC will now look to engage with the developer for next steps and have emailed -

I therefore would ask if the Parish Council are willing to take on the car parks, this one and the adjacent one to the station which has just about been completed. Whilst there was potential for GCC to take them they do not appear to have progressed anything. Whilst there is a liability and maintenance responsibility if the Parish do take them it would reflect the Parish vision for the area and provide control going forward.

With the phase 2 nearly completion there is a need to action this so we would seek to make positive progress and understand whether Parish adoption is an option for either of both. I therefore look for an answer from the Parish Council so we can take approach action.

I replied to ask –

I'll make sure to add this to the Council agenda for 5th November.

Before this meeting, would you be able to confirm if both car parks are built to a specified standard and if so, the details of those standards. Is there any specific mention of lighting or funding support to install lighting? Also, are there any on going maintenance contributions? Or S106 monies available?

I have not yet had any reply
