

Meeting	Planning & Highways Committee
Date	Wednesday 11 February 2026
Report Title	25.141 Speed Radar Sign – Location Decision
Author:	Projects Officer, Johanna Hutcheson

Officer's Recommendations:

That the Committee reviews the available speed survey data and agrees the most appropriate location for the installation of a Speed Radar Sign in Cam, funded through the Community Infrastructure Levy (Neighbourhood).

Purpose of Report

To enable the Planning & Highways Committee to determine the preferred location for a Speed Radar Sign, so that the necessary permissions can be sought from Gloucestershire County Council (GCC) Highways.

Background

At its meeting on 22 October 2025, the CIL Working Party recommended allocating Community Infrastructure Levy (CIL) funding to several internal projects, including the installation of a Speed Radar Sign.

In November 2025, Full Council requested that the Planning & Highways Committee progress this project.

Before installation can proceed, the Committee must agree a location for the Speed Radar Sign. Approval from Gloucestershire County Council Highways is required prior to installation.

Speed Data and Evidence

To support an informed decision, the GCC Transport Monitoring Team has provided speed survey data for locations within Cam. The data presented reflects the 85th percentile speed, which is the standard measure used when assessing the need and suitability for speed enforcement or monitoring devices.

The most recent data available is from 2023.

Next Steps

Councillors are asked to review the information provided and consider the most appropriate location for the Speed Radar Sign.

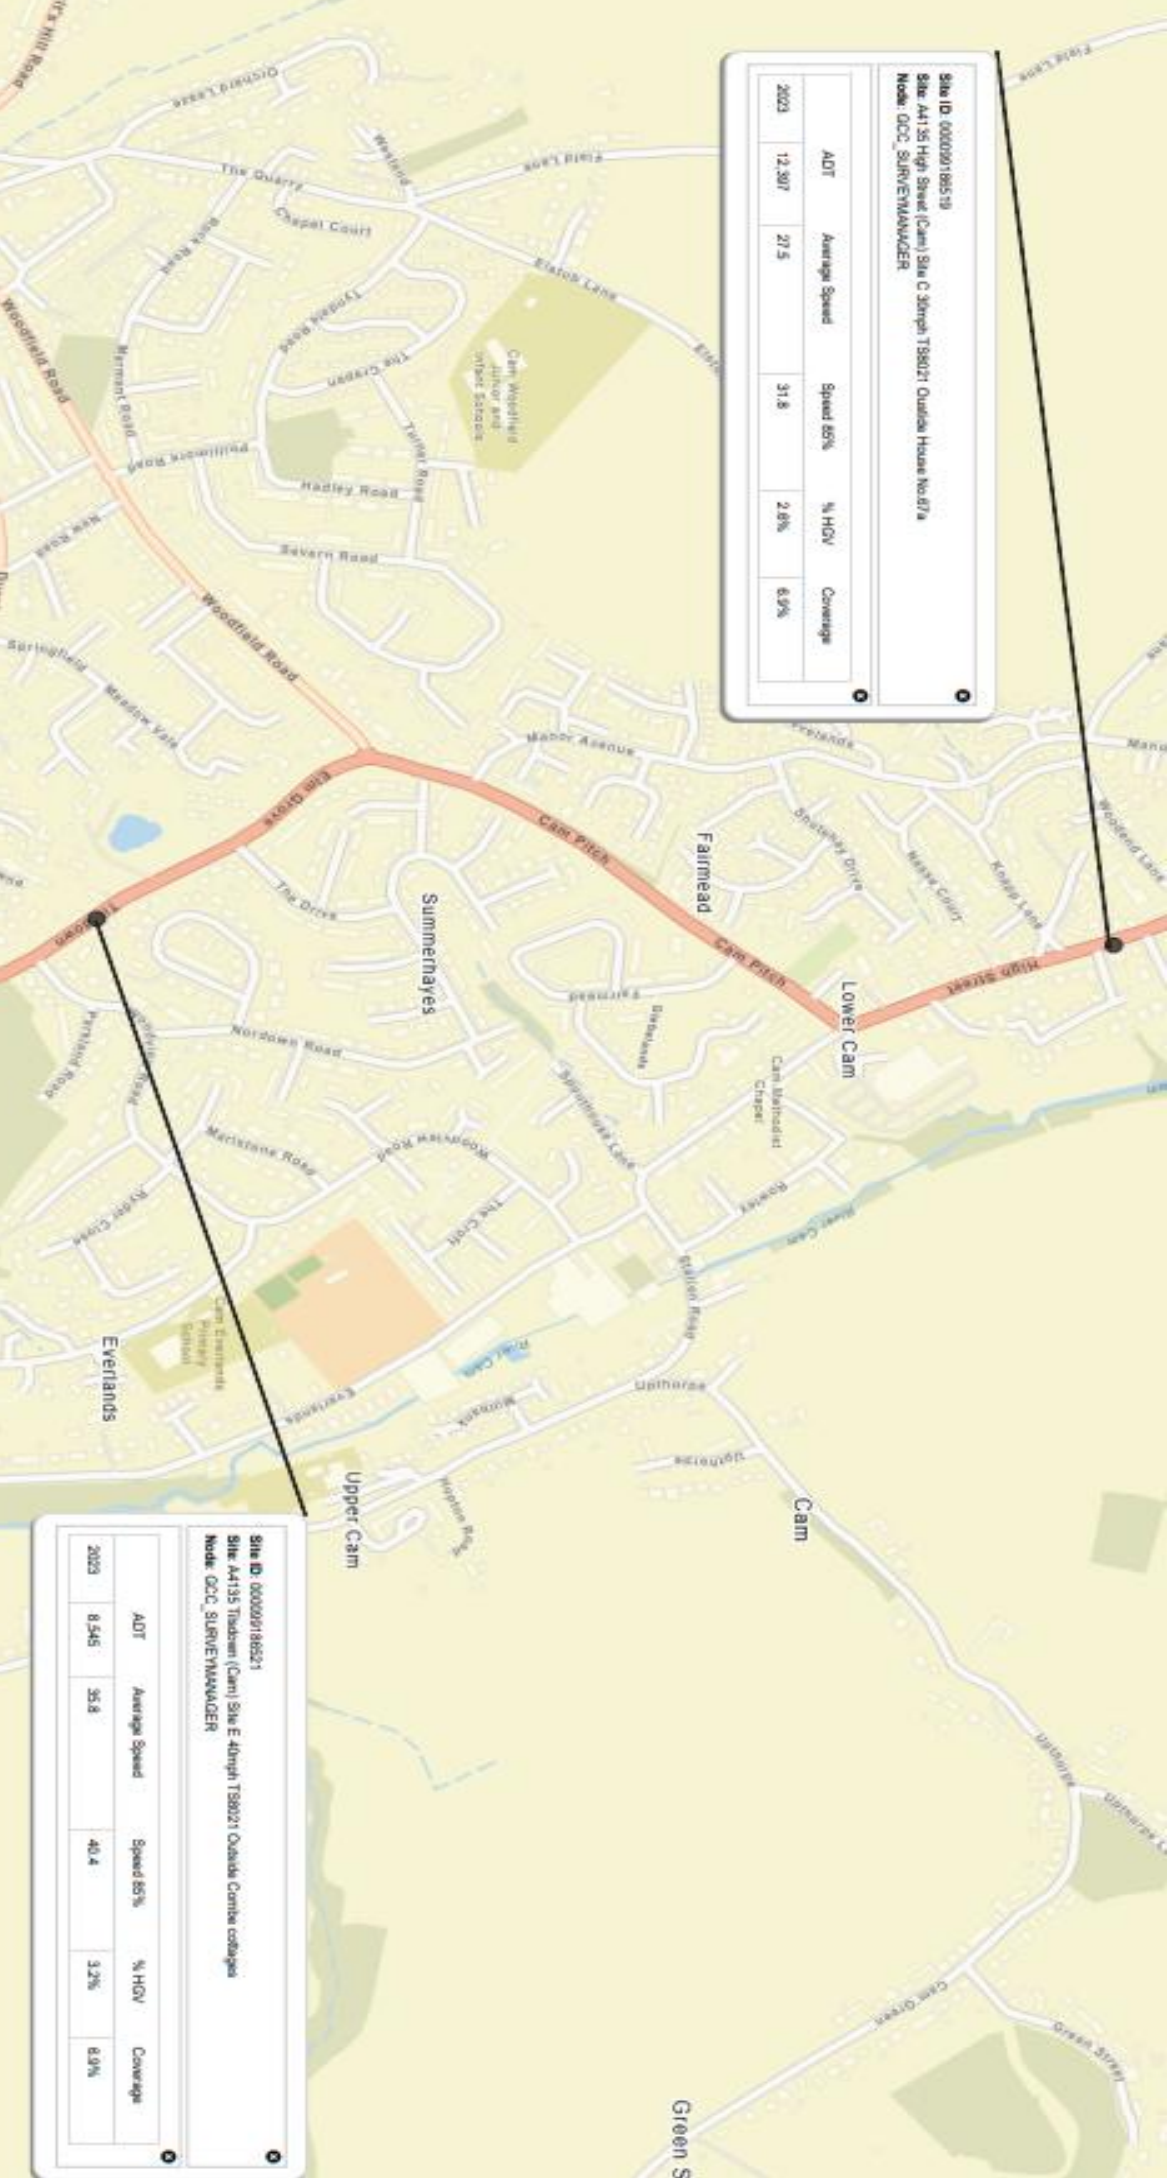

Once a location is agreed, the Projects Officer will liaise with GCC Highways, the Transport Monitoring Team, and the Road Safety Team to seek permission and obtain technical advice prior to installation.

Compass Data -

Compass IoT Speed Data for Cam High Street, Cam Pitch and Tiltdown below:

Speed Data (01/01/2025 - 31/12/2025)					
Road Name	Direction	Average Speed (mph)	Median Speed (mph)	15th% Speed (mph)	85th% Speed (mph)
High Street	NB	26.77	27.28	22.25	30.94
	SB	25.81	26.28	20.63	30.26
Cam Pitch	NB	32.2	33.12	27.03	37.84
	SB	31.83	32.31	25.6	38.28
Tiltdown	NB	32.07	32.93	27.46	37.41
	SB	32.31	32.44	27.34	37.53
