

Dear Customer

23 FEB 2026

Saw Mill End
Off Corinium Avenue
Gloucester
GL4 3BH

18 February 2026

We are planning to carrying out works to install a new underground cable for the new development site at Glebelands. (Plan attached)

We plan to start our works on the 17th March 2026 and complete by the 27th March 2026.

Work will involve excavation works from our substation (which is in the corner of Orchard medical centre car park) along the footpath at the side of and in front of properties 34-37 before crossing the road into site. Once this is complete, we will then install our cable before carrying out the live connections.

The footpath will be closed and there will be no parking outside of 34-37 during the works. A temp walkway will be installed and Access to properties 34-37 will be maintained at all times.

I'm aware there is very limited space and I will ask our contractor to keep the site as tidy and as tight as possible. Traffic will be on a give and take system and small delays maybe possible during excavation works across the road and when installing the cable.

If your supply is to be interrupted during the works you will be notified beforehand.

I apologise for any inconvenience this may cause but we will endeavour to complete the works as quick as possible.

If you have any queries or would like to discuss these works then please telephone myself 01452 651240 on my mobile on 07809585400

Thank you in advance for your patience and cooperation whilst this working is being carried out.

Yours faithfully

Mike hart
